Pioneered by GE. Refined by GE.

With a history of dedication to innovation and excellence, today's family of GE sealant and coating products address a wide variety of the ever-inventive, increasingly demanding architecture found around the world. Outstanding durability, flexibility and movement capability are fundamental to the high performance of GE construction products. With decades of experience, in new and remedial applications, on some of the world's most innovative structures, the team provides knowledge and comprehensive support to help ensure each project is successful.

Performance Coatings

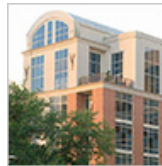

Roofing Restoration Systems

Why re-roof, when you can restore? Use durable and warranted GE Enduris* 100% silicone liquid-applied, high performance roofing systems.

Air and Water-Resistive Barrier

What's under your façade? 100% silicone, liquid-applied, high performance GE Elemax* AWB system helps reduce energy usage and protect your building from air and water-related elements.

Architectural Coatings

Good, better, best: high performance, GE SilShield* 100% silicone and premium VIP elastomeric acrylic coating systems help shield your building from the elements.

Translucent Water-proofing Coating

GE Optic* 100% silicone coating waterproofs wood, brick and other substrates. Crystal clear, Semi-Gloss finish will not yellow over time.

Construction Sealants

Structural Glazing

With outstanding durability, excellent joint movement

Weatherseal

GE Weatherseal products are equipped with attributes that

Insulating Glass

GE insulating glass products have the strength and

Glazing

GE glazing sealants' fast-cure properties provide rapid

Specialty

GE specialty family includes a variety of sealants and

capability and weather resistance, GE structural glazing products provide properties for many of the unique and challenging architecture demands around the globe.
