

Hard Knox Products

We have Learned from Our Past Failures™

[About Hard Knox](#) | [CSI Specifications](#) | [CAD Details](#) | [LEED Statement](#) | [Contact Us](#)

[07 6100 - Metal Roofing](#)

Metal roof styles available: standing or batten seam with integral lock; field seamed panel with 3 seam heights; and snap-on seam. All available with various pan widths. Using our unique roll-forming options, we are able to eliminate end laps with continuous length panels.

[08 4400 - Curtain Walls](#)

These systems are engineered to meet a variety of design and energy efficiency demands while maintaining architectural appeal. We manufacture the precast concrete and aluminum systems for a complete building envelope.

[07 8100 - Fireproofing](#)

Spray-applied cementitious fireproofing materials and accessory products for use with our fireproofing. They have a base of gypsum or Portland cement with the necessary aggregates, fillers and additives factory blended to assure proper composition.

[13 1200 - Fountains](#)

Floating display aerators, fountains, waterfall pumps and stationary (bowl) fountains.
